

CGS2590 Cornerguards

Corners are one of the most vulnerable parts of a building and when left exposed are often damaged from everyday wheeled and pedestrian traffic. Corner guards are ideal for reducing maintenance costs and maintaining interior appearances and can be combined with other Gradus protection products to provide a complete solution.

Gradus Standard PVC-u corner guards provide a cost-effective solution for protecting corners from damage caused by pedestrian and wheeled traffic and are ideal for use in environments such as hotels, leisure clubs, schools, offices and nursing homes.

The one-piece corner guards are manufactured from through-coloured, easy to clean PVC-u and are textured to conceal the effects of impact and abrasion.

They are available with factory applied adhesive tape for easy installation or without tape for installation with a suitable adhesive. Note: To order Standard corner guards without the factory applied tape, denote with the suffix 'N' after the model number. Standard corner guards with tape have the suffix 'T'.

Material:	Extruded semi-rigid PVC-u and aluminium
Colour:	Available in 34 colours
Surface finish:	Textured
Thickness of the cover:	2 mm
Height:	0.8m, 1.0m, 1.22m, 1.3m, 2.0m, 2.44m, 2.7m and 4.0m Can also be cut down to suit specific requirements.
Fixing:	For CGS2590N Gradus Grip is recommended – CGS2590T is supplied with tape
Weight:	0.15 kg per m
Fire certification:	B-s3,d0
Resistant to cleaning chemicals:	Yes
Available as BIM object	Yes
Maximum service temp:	60°C
