Maximum service temp:	60°C

The Gradus CHR160 Combination Rail has a large surface area and is primarily designed to offer direct and indirect protection against impact from wheeled traffic. The profile also has comfortable grip and thumb groove to provide reassuring pedestrian support. Modular in design for easy installation and replacement in the event of damage, the CHR160 combination rail includes a PVC-u cover, aluminium retainer and PVC-u injection moulded accessories. Accessories include reveals to provide a tight, neat joint. All PVC-u covers and accessories are non-reflective, through coloured and textured to conceal the effects of impact and abrasion.
